

# 6 Ways to Quickly Make Your Campground More Dog-Friendly

**A survey done by Harvest Hosts indicates that 71% of RVers plan on traveling with their pets—mostly dogs. So having these six things can separate you from the pack in regard to pets, and help create loyal, repeat campers.**

- 1 Clear Pet Policies:** Provide clear rules. Most pet owners care about their pets and want to follow reasonable guidelines.
- 2 Provide Local Vet Service Information:** Life happens for pets too. To display knowledge of local vets shows care and concern for the safety of your RVers' pets. Provide this information to your guests traveling with pets.
- 3 Dog Wash Station:** Adding a wash station could make a big statement. This helps provide RVers with a place to keep their pups clean.
- 4 Pet Waste Stations:** No one likes dog waste lying around. Add pet waste station to eliminate any excuses, and provide a needed service.
- 5 Off Leash Area:** A designated area to allow pets off leash is a great addition! If you can afford to fence it in, that is even better.
- 6 Greet The Pets Too:** When you greet your campers, acknowledge their pets too. Consider having dog treats on hand to pass out. This will go a long way.

**These perks can add a lot to your guests' experience. Consider adding them to your CampersCard Membership program too! With CampersCard, you'll gain access to 800,000+ RVers and outdoor enthusiasts, and you'll be connected to a company with a decade of RV travel business experience.**
