

Earn Your CPOSM Certification

One Certification Has Achievement Written All Over It

Why a CPOSM Certification?

The PHTA Certified Pool & Spa OperatorSM Certification is recognized by local and state authorities as the most widely-accepted, verifiable pool and spa training credential. Each year, more than 30,000 professionals learn how to more efficiently operate safer aquatic facilities with this program. The CPOSM Certification is valid for five years. This is an approved National Environmental Health Association course which will earn you 16 CEUs.

The CPOSM Certification course will help you understand how to:

- Operate a pool more easily and efficiently — saving time and money.
- Reduce chemical, electrical, biological, and physical hazards — protecting users and employees.
- Comply to key safety regulations — reducing liability and risk of closure.

Taught by Terry Munoz, a longtime TACO board member who has been teaching Certified Pool Operator training for 22 years.
