

RV TECHNICAL BASICS

Learn How to Assist Your Customers and Boost your Customer's RV'ing Experience!

Want to boost your customer's RVing experience? *Join us on Monday, April 28th at the Homewood Suites by Hilton Conroe.* This will be a hands-on look at an RV with an RV Industry Association Representative from the RV Technical Institute. Park operators/managers are often the first people to tend to a guest experiencing technical difficulties with their RV. This session will teach some basics to help get guests safely on the road, save a vacation that may be going downhill fast, and make your campground stand out as one of the best with customer service!

SESSION WILL INCLUDE:

- Basic Electricity Testing & Safety Wattage, Voltage and Amperage.
- What is lost when using a dog bone?
- Tripping breakers on a 30 Amp camper, replacing fuses, where are the circuit breakers located?
- How to hook up Cable TV, how to turn off the antenna amplifier, Wi-Fi, satellite signal, and set up.
- What a generator ATO switch is, what happens when it goes bad. How to check.
- Basic water systems.
- LP system.
- What appliances can be used at the same time in season, appliances troubleshooting - *(HVAC, water heater, furnace trouble and refrigerator trouble shooting quick checks).*
- Broken awnings both electric and manual.
- Getting a slide room back in *(6 different types).*
- Troubleshooting inoperable jacks and Landing gear.
- Auto levelers jack not working correctly, how to override leveling jack.
- Chassis, Hydraulics and Towing.

THIS SESSION WILL HAVE SEPARATE REGISTRATION AND WILL NOT REQUIRE TACO SHOW REGISTRATION!
